

# UBC Faculty of Medicine, Department of Emergency Medicine Preceptors for Years 1 & 2 Shadowing Shifts

**Emergency Medicine shadowing shifts are open to UBC  
Medical Students ONLY!**

UBC Medical Students in Years 1&2 are permitted to schedule a **MAXIMUM** of 2 observer/shadowing shifts during their first two years.

Shifts must be approved with the Emergency Physician you are scheduled with and must **NOT** interfere with any other learners (medical students/residents or other learners) who are scheduled at the specific site. Please ensure that you wear your UBC photo ID when on any observer shift. You are required to wear scrubs when in the Emergency Department – please ask the EP you are working with to help you access scrubs and a change room. **You must follow all COVID PPE protocol – If you are unsure, please check with your EP regarding mask requirements, etc.**

If you book a confirmed shadowing shift with an Emergency Physician and cannot attend the shift for any reason, please ensure that out of respect for the physician, you contact the physician to advise that you cannot attend the shift.

UBC FOM Students who schedule themselves with an Emergency Physician for a shadowing shift must ensure that they follow the policy for shadowing/liability registration at the following links:
